

Coniraya Alpaca Breeders invites secondary schools for integration and recreational activities

Offer addressed
to organized groups
in Polish or English.

CONIRAYA

Our animals

During your visit to our farm, you will meet representatives of the camelid family, including several dozen alpacas, llamas and camels. We also have horses and Icelandic ponies.

during the meeting...

- basics of farm work
- health and safety at work with animals
- the basics of ensuring animal welfare and animal training through group tasks
- walk with alpacas with caregiving tasks

Each visit can be expanded to include thematic scopes of the core curriculum in the following areas: nature, biology, geography, English, art, class/group educational work plan.

It is possible to organize physical/recreational activities. →

Example of thematic areas

Acclimated adaptations in relation to the animals' native roots.

Climatic and landscape zones, where horses, alpacas, llamas and camels live.

Fundamentals of evolutionary theory based on the analysis of representatives of the camelid family.

5

In addition to classes...

A visit to the Coniraya resort can be extended by using the barbecue facilities, taking part in physical activities or taking a walk in the meadows belonging to the farm.

CONIRAYA

You can also take advantage of our lectures organized at school, and arrange a series of educational classes covering several selected thematic issues related to the organization of work on the farm, plant production, breeding, training or animal behavior, or the use and processing of fleece.

**We are open
to your
suggestions**
